

FENG SHUI SECRETS

PRACTICAL GUIDE BY SANDRA DRINCIC

WWW.QI-INSTITUTE-SERBIA.COM

introduction

Feng Shui is the art of living in harmony with our property and with the neighborhood we live in. We should perceive our property as our body (door - mouth, windows - eyes, walls - skin, construction - bones, wiring - nerves, drains - body's drainage system, rooms - organs, etc.).

By taking good care of our property we are taking care of ourselves, of our organism and all aspects of life.

In the world of this science, as I see it, I have entered due to my own health problems. The secret says that only a person that went through a difficult period of life, facing health and even existence

challenges, can become an expert in it. Faith wanted me to be one of the few that received the generational knowledge from one Chinese family. My questioning of everything I have been learning so far and the practice I had in many European countries have made me an expert with strong belief in my words and deeds, given that I am familiar with all kinds of space energies.

I have created a unique system of space arrangement that starts with the radiesthetic check and the space cleansing, and ends with the Feng Shui project realization. After such a preparation of the space I work in, I can be positive about the success of my work. In cooperation with a wonderful editor of this interesting magazine

Sandra Drincic - Qi Mag International Feng Shui expert and lecturer, founder of the Center for Education Qi Institute - Feng Shui home designing, Serbia.

I wish to reveal to you some of the secrets that are part of the oral tradition, but limited to what you can do on your own.

Sincerely yours,
Sandra Drincic

Feng Shui **WISH BOARDS**

Kitchen

REPRESENTS:
A place of health and wealth of tenants

REPRESENTS:
ORGAN: Liver
ASPECT OF LIFE: Health of tenants
PARTS: stove – money

Kitchen represents the health of the tenants because it is a place where food is prepared. Naturally, the kitchen represents wealth as well: if the tenants receive good and quality food, they will be able to function well in the real life and earn money.

If the alimentation is bad, the tenants will lose their will and power of thought for higher goals.

IF THE TENANTS RECEIVE GOOD AND QUALITY FOOD, THEY WILL BE ABLE TO FUNCTION WELL IN THE REAL LIFE AND EARN MONEY

NOT AT ALL

- 1 KITCHEN IN THE CENTER OF THE HOME:** lack of love and real emotions among family members, the problem with arrhythmias
- 2 ACROSS FRONT DOOR:** Alcoholism or grumpiness
- 3 DIRTY DISHES:** Negative news will always reach you
- 4 DIRTY OVEN:** Financial problems
- 5 MESS IN THE FRIDGE:** Unpaid debts
- 6 RED KITCHEN:** Marriage quarrels
- 7 BLUE KITCHEN:** Financial problems
- 8 ORANGE KITCHEN:** Problem with weight
- 9 STOVE UNDERNEATH THE CROSSBAR OR BELOW THE WINDOW:** Financial loss
- 10 KNIVES STABBED IN THE WOODEN BASE:** Quarrels
- 11 BLUNT KNIVES:** Invoke accident
- 12 MICROWAVE IS NOT DESIRABLE:** Because it kills Qi energy of food and a person is full of radiation

THE SECRET:

- 1.** Make cooking altar with 5 kinds of food and a candle in the middle, to attract health and wealth
- 2.** On the wall behind a stove mount a mirror, so that it reflects the plates which bring happiness and wealth
- 3.** Ideal kitchen: in the tones of beige or mint green, good lighting, kitchen elements made of the lighter wood

IDEAL KITCHEN:
BEIGE TONES OR MINT GREEN, GOOD LIGHTING

IF LOCATED NEAR THE ENTRANCE - GREED.

Dining room

REPRESENTS:
household income

REPRESENTS:
ORGAN:
stomach, spleen
ASPECT OF LIFE:
Communication
between tenants

Dining room should be arranged in a way that would ease the Qi energy circulation. It should be comfortable and intimate, with soft lighting oval or round table, slightly curved chairs.

Candles in the middle of the table during dinner increase the Qi energy.

Chairs used by the hosts should be leaned on the full wall, facing the entrance door.

Too many windows in the dining room cause discomfort, distraction and increase financial costs related

to children. Besides table and chairs, a chest with drawers would be enough of furniture. It is not desirable to have a glass table in the dining room; glass represents a water element and in this case it would help the family

finances' melting.

If the dining room is near the entrance door, the tenants always arrive hungry and visitors eat quickly and leave. In addition, the family's finances are "going back" through the door.

TOO MANY WINDOWS IN THE DINING ROOM CAUSE DISCOMFORT, DISTRACTION AND INCREASE FINANCIAL COSTS RELATED TO CHILDREN.

IF THE KITCHEN AND DINING ROOM ARE SEPARATED – FAMILY PROBLEMS

TIPS:

- ◆ If the table is square, always keep an oval bowl on it to harmonize the energy flow against the sharp table edges
- ◆ Avoid dining tables with marble top, it causes work problems
- ◆ Ideal position of the dining room is the centre of the apartment, from there it would activate harmony amongst family members and their good communication
- ◆ Fruit images on the dining room's walls represent the wealth of food and activate income
- ◆ It is enough to place one mirror, reflecting a dining table, given that mirrors double the images and in this case the earnings of tenants
- ◆ The ideal table is round, a circle symbolizes the Heaven, the assistance of God, and in a numerous family it represents all members' equality since there is no frontal seating place.

because they create shadows that look like knives.

2. If you happen to have a slope in part of the sitting area, you must position the fan below the

Bedroom

REPRESENTS:
partnership

REPRESENTS:

ORGAN:
lungs, colon

ASPECT OF LIFE:
love

The bedroom arrangement reflects your partnership and marriage. Health status depends on the negative harmful radiation check and neutralization, if any. It also depends on the type of surface you sleep on and the anatomical pillow use, as opposite to leaving

the organism pillar and all nerves holder (spine) to discomfort. Floor mat: mandatory on the floor under the bed, since it prevents many types of radiation.

It is not recommended to place the pillow near the wall shared with the kitchen (head related problems) or the bathroom (thyroid gland problems).

YOU SHOULD NOT GET YOUR HEAD FACING THE WALL WITH THE KITCHEN OR TO THE WALL WITH A BATHROOM.

NO

- plants, except when someone is ill
- crystals and stones: destructive to the human aura that should be resting
- blue floor: partnership collapses
- red room: arguments
- mirror: the interference of a third person in the relationship, the marriage
- bed with a box below: often illness
- water in the room, causes discomfort

If you have a TV in the room, bound his distance 1.2 m from the head and lungs of the sleeper. Prolonged exposure to electromagnetic fields can cause leukemia or lengthy illnesses, because of the destructive effects on immunity.

Needless to mention, in modern times it is wise to keep the bedroom and the space for human waste discharge separated!

Bathrooms connected to bedrooms should be neutralized, to avoid the return of a filthy energy discharged from the organism to the bedroom, causing many medical and partner issues, including even the inability to conceive.

Round bed creates insomnia.

If the bed is under exposed beams, may cause disease of the body part which is right underneath the crossbar. If the beams placed parallel with respect to the position of the bed - the possibility of detention.

SECRET:

if the bed is moved to the wall, a partner who sleeps on the outer side of the bed - dominates the marriage or the relationship.

BALDACHIN IN THE BEDROOM BRINGS ARROGANCE.

place for resting
and playing

TOYS SHOULD BE
PACKED IN BOXES AT NIGHT,
TO AVOID CRESTING OF THE
RESTLESS ENERGY.

REPRESENTS:

ORGAN:
immunity

ASPECT OF LIFE:
creativity

Nursery has a dual function: rest at night and play and work during the day. The most important thing in nursery is the position of beds in relation to the possible negative harmful radiation. Setting the matting on the floor under the

bed, is one of the solutions to neutralize harmful radiation.

If a heavy closet is placed next to child's bed, it will decrease the child's development and cause

tantrums, or the bone fracture possibility due to its fight with the invisible "restriction".

Heavy pieces of furniture should be removed from child's bedroom.

TV sets, computer and aquarium are not wanted in nursery (or should be unplugged during the night) because of their negative influence on the children's immunity.

Toys should be packed in boxes at night, to avoid cresting of the restless energy.

Avoid mattresses with wires. If you already have them, the solution could be to set woolen layers to reduce their negativity.

Proximity of furniture with plastic door is very bad for a child, measurement showed that it emits a radiation.

If your child has a problem with poor sleep or insomnia, you should check the following

- that the bed is placed against a wall with a kitchen or bathroom (**ear or third tonsil**)
- if it is to the wall, that part of the bed should be moved at least 5cm to allow for child's aura to receive the energy flow on that body side as well.
- ornaments hanging above the bed cause **insomnia**

BUNK BEDS ARE NOT RECOMMENDED:
child who sleeps up - **poor progress** in school
Child who sleeps below may have a problem with **bedwetting**.

BEST POSITION OF A DESK FOR A GOOD LEARNING:

- wall behind the back
- open space in front of the table (breath)

Wall across the table, decorate with a picture of a child's desire boards.

Use of dining chair with desk - poor concentration

BED BY THE WINDOW:

- Close to the head: the problem with throat
- Close to underbelly: the problem of bladder
- Legs toward the door to the room: chronic health problems.

SECRET OF CHILD PSYCHOLOGY:

A child that finds stuffed animals of great importance shows that it needs a lot of warmth and sense of safety.

Southwest - a bad marriage or inability to enter into marriage

South - difficult to achieve high positions

Northeast - anxiety among family members, poor learning

East - poor health, often overcooling

Southeast - a problem with uncollected debts, low income

REPRESENTS:
ORGAN:
kidneys and bladder

ASPECT OF LIFE:
people power and finance

It is not good to see the toilet from the front door of the bathroom.

Plant is desirable to absorb negativity. If it wilts, replace it.

Bathroom positioning in the middle of a property has a bad influence on the health, love and happiness of the whole family.

SECRET:
On the outside side of the door place fringe that would disable a bad energy to create problems.

Disorder

Disorder causes tiredness, lethargy, weight gain, attachment to the past, problems with digestion, confusion, a lack of respect, procrastination, fights, depression, parsimony... For example: by the look of the kitchen we can determine the health of the entire family.

Cleanliness is next to godliness, and the biggest space change occurs only when it is thoroughly cleaned.

When you begin to clean up the clutter in your home, it will change your personal energy. You will feel that you have started to breathe deeply, inside your body but also outside, in many aspects of your life.

DISORDER IN:

- **Cellar** - is your subconscious, unresolved issues of the past, delay in resolving difficult situations, because of the burden of an ancestor, dark family secret, problems in communication with brothers and sisters.
- **Attic** - represents the future of your ideas, your aspirations and opportunities are limited, the future is blocked, fear of future.
- **Drawer** - depression

- **Kitchen** - health problems
- **Fridge** - problem with finances

- **Closets** - energy flow is blocked in your organism, disordered life, and chaotic mind.
- **On the closets** - problems waiting to be resolved
- **Garage** - you're limited, you do not have freedom nor movement
- **Staircase** - the inability of development
- **Desk** - hard to finish the job started
- **Floor** - your finances (many boxes on the floor, books and other items, preventing the flow of money through real estate).
